

Economic Development Administration, Commerce

§ 301.6

the most economically distressed county or other equivalent political unit (e.g., parish) within the Region. The maximum allowable Investment Rate shall not exceed eighty (80) percent.

(iii) In compelling circumstances, the Assistant Secretary may waive the application of the first sentence in paragraph (b)(3)(ii) of this section. The Assistant Secretary shall not delegate the authority to grant a waiver under this paragraph.

(4) *Projects under part 306.* Except as otherwise provided in paragraph (b)(5) of this section, the maximum allowable Investment Rate for Projects under part 306 of this chapter shall generally be determined based on the relative

needs (as determined under paragraph (b)(1) of this section) of the Region which the Project will serve. As specified in section 207 of PWEDA, the Assistant Secretary has the discretion to establish a maximum Investment Rate of up to one hundred (100) percent where the Project:

(i) Merits, and is not otherwise feasible without, an increase to the Investment Rate; or

(ii) Will be of no or only incidental benefit to the Eligible Recipient.

(5) *Special Projects.* Table 2 of this paragraph sets forth the maximum allowable Investment Rate for certain special Projects as follows:

TABLE 2

Projects	Maximum allowable investment rates (percentage)
Projects of Indian Tribes	100
Projects under part 307 of this chapter located in Presidentially-Declared Disaster areas for which EDA receives an application for Investment Assistance for post-disaster economic recovery efforts pursuant to a supplemental appropriation within eighteen (18) months of the date of such declaration	100
Projects of States or political subdivisions of States that the Assistant Secretary determines have exhausted their effective taxing and borrowing capacity, or Projects of non-profit organizations that the Assistant Secretary determines have exhausted their effective borrowing capacity	100
Projects under parts 305 or 307 that receive performance awards pursuant to § 308.2 of this chapter	100
Projects located in a District that receive planning performance awards pursuant to § 308.3 of this chapter	100

(c) Federal Funding Opportunity notices may provide additional Investment Rate criteria and standards to ensure that the level of economic distress of a Region, rather than a preference for a geographic area or a specific type of economic distress, is the primary factor in allocating Investment Assistance.

[71 FR 56675, Sept. 27, 2006, as amended at 73 FR 62865, Oct. 22, 2008]

§ 301.5 Matching share requirements.

The required Matching Share of a Project's eligible costs may consist of cash or In-Kind Contributions. In addition, the Eligible Applicant must show that the Matching Share is committed to the Project, will be available as needed and is not or will not be conditioned or encumbered in any way that would preclude its use consistent with the requirements of the Investment Assistance.

§ 301.6 Supplementary investment assistance.

(a) Pursuant to a request by an Eligible Applicant, EDA Investment Assistance may supplement grants awarded in another "designated Federal grant program," if the Eligible Applicant qualifies for financial assistance under such program, but is unable to provide the required non-Federal share because of the Eligible Applicant's economic situation. For purposes of this section, a "designated Federal grant program" means any Federal grant program that:

(1) Provides assistance in the construction or equipping of public works, public service or development facilities;

(2) Is designated by EDA as eligible for supplementary Investment Assistance under this section; and

(3) Assists Projects that are otherwise eligible for Investment Assistance and consistent with the Eligible Applicant's CEDS.

§ 301.7

(b) For Projects located in Regions meeting the criteria of § 301.3(a), the EDA Investment Assistance, combined with funds from a designated Federal grant program, may be at the maximum allowable Investment Rate, even if the designated Federal grant program has a lower grant rate. If the designated Federal grant program has a grant rate higher than the maximum EDA Investment Rate, the combination of EDA Investment and other Federal funds may exceed the EDA Investment Rate; provided, the EDA share of total funding does not exceed the maximum allowable Investment Rate.

Subpart E—Proposal and Application Requirements; Evaluation Criteria

§ 301.7 Investment Assistance proposal.

(a) The EDA Investment Assistance process begins with the submission of an Investment Assistance proposal. Investment proposals are submitted on a Pre-application for Investment Assistance (Form ED-900P or any successor form) that may be obtained from EDA's Internet Web site at <http://www.eda.gov> or from the appropriate regional office. EDA generally accepts proposals on a competitive and continuing basis to respond to market forces in Regional economies. The timing with which competitive investment opportunities arise, as determined by the criteria set forth in § 301.8, paired with the availability of funds in a given fiscal year, will affect EDA's ability to participate in any given Project. EDA will evaluate all proposals using the criteria set forth in § 301.8 and will:

(1) Solicit a formal application from the proponent;

(2) Return the proposal to the proponent for specified deficiencies and suggest resubmission upon corrections; or

(3) Deny the proposal for specifically stated reasons and notify the proponent.

(b) For certain programs, EDA may instruct an Eligible Applicant to submit an Application for Investment Assistance (Form ED-900A or any successor form) in lieu of the Pre-applica-

13 CFR Ch. III (1-1-10 Edition)

tion for Investment Assistance (Form ED-900P or any successor form).

§ 301.8 Proposal evaluation criteria.

EDA will screen all proposals for the feasibility of the budget presented and conformance with EDA statutory and regulatory requirements. EDA will assess the economic development needs of the affected Region in which the proposed Project will be located (or will service), as well as the capability of the proponent to implement the proposed Project. EDA will also consider the degree to which an Investment in the proposed Project will satisfy one (1) or more of the following criteria:

(a) *Is market-based and results driven.* An Investment will capitalize on a Region's competitive strengths and will positively move a Regional economic indicator measured and evaluated by EDA on a performance matrix system, such as EDA's Balanced Scorecard or other performance matrix. These Regional economic indicators include measures such as an increased number of higher-skill, higher-wage jobs, increased tax revenue, or increased private sector investment resulting from an Investment.

(b) *Has strong organizational leadership.* An Investment will have strong leadership, relevant Project management experience and a significant commitment of human resources talent to ensure a Project's successful execution.

(c) *Advances productivity, innovation and entrepreneurship.* An Investment will embrace the principles of entrepreneurship, enhance Regional industry clusters and leverage and link technology innovators and local universities to the private sector to create the conditions for greater productivity, innovation, and job creation.

(d) *Looks beyond the immediate economic horizon, anticipates economic changes and diversifies the local and Regional economy.* An Investment will be part of an overarching, long-term Comprehensive Economic Development Strategy that enhances a Region's success in achieving a rising standard of living by supporting existing industry clusters, developing emerging new clusters or attracting new Regional economic drivers.
